ENGINEERING AND SOFTWARE

Northline Web Co. - Founder and Web Developer

- Built five free websites for local businesses and youth entrepreneurs, including Shergill Nail Lounge, Artisan Pizza Cloverdale, and Baked Goods by Jas.
- Created responsive layouts with service and pricing information, galleries, and direct booking, ordering, and contact links.

VEX Robotics Team 98549E - Builder and Scout

2025-Present

- Built and tested drivetrain, intake, and scoring mechanisms; documented revisions in the engineering journal.
- Contributed to a team rebuild that improved the driver-skills score from 19 to 30.

Personal Projects

- Monitor-distance sensor: Built a prototype that flashes an alert when a user sits too close to a screen.
- Battle Bot Simulator: Developed a modular robot simulator in Python/Pygame and a browser version with configurable parts, opponent logic, and two-player play.

COMMUNITY LEADERSHIP

Youth Connect Events - Co-Founder

October 2025-Present

- Helped raise more than \$1,500 through charity events, including an auction and a badminton tournament with 30+ participants.

Yo Bro | Yo Girl Youth Initiative - Volunteer Youth Leader

- Coached free wrestling practices for 35+ youth; volunteered as a wrestling coach for three years.
- Led two weekly programs teaching sports and public speaking to 140+ elementary students.

278 Cormorant Squadron - Sergeant

Three years in the squadron

- Reached Sergeant after two years. Taught classes, organized sports tournaments, and worked with instructors as one of the squadron's first cadets.
- Earned Introduction to Survival (ITS) certification.

SKILLS AND ACTIVITIES

Programming and tools: Python, Java, JavaScript, HTML/CSS, Git, Pygame, Canvas.

Languages: Fluent English, French, and Punjabi; intermediate Hindi and Urdu.

School activities: Volleyball, AI Advisory Council, and scorekeeping at school sports events.
